

Curriculum Fair Project– 1st Grade Careers

The Curriculum Fair is coming up! We will have it during National Lutheran Schools Week, the first week in March.

What job would you like to do when you grow up?

Find out more about that job. You may talk to someone who does that job. You may read a book about the job. Find answers to these questions:

How would you do the job?

What tools are needed to do the job?

How much does it pay?

Where would you work?

Who would you work with?

What is the best part of the job?

Gather all this information, and write a paragraph or two about the job. Take at least one picture of someone or find a picture of someone from a magazine or from the internet doing that job.

Mount the paragraphs and the pictures on a 12x18 piece of colored paper or poster board. Bring to school by February 20. Be sure and thank your parents for their help!
