

Dedication

Miss Sunderman

We dedicate this yearbook to an amazing teacher

Miss Sarah Sunderman.

Over the past several years, she has taught us the basic and the not-so-basic subjects, but also taught us much about ourselves and how to be better persons. She may have moved on to another school, but she will always hold a special place in our hearts and in the halls of LSA. We will miss you and "the look"!

We wish you much luck and best wishes in the future.

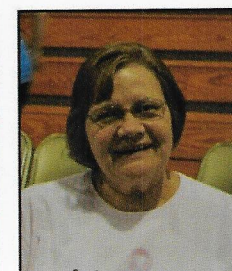

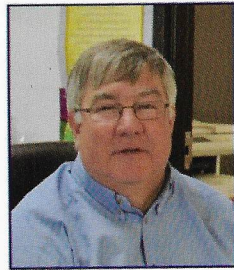

God's Blessings To You!

~ Class Prophecy ~

Here we are in 2021 and it is time for Pastor Todd to take a look back on the class that made its mark on the hallowed halls of our Lutheran School Association a decade ago...the Class of 2011. First off, I caught up with **Alexus Dieckmann**. Alexis, having made her mark in the State Fair Show Ring 10 years ago, has now launched her own line of 4H approved bovine fashions. She spends most of her time on the road promoting her product while finishing up a Master's Degree in Coaching. **Victoria Eckhoff** was the next in line. She was quite difficult to locate since she is always on the road as a motivational speaker. Vicca has developed a 14-step program for the empowerment and motivation of heighth challenged women. Her key line is, "It may take us fourteen steps to do what you can in twelve but short women will rule the world". **Zachary Fox** has become one of the most revered oyakata in all of Japan. Zach, having picked up a love of wrestling while attending the University of Iowa, took his interest and morphed it into a stratospheric rise in prominence in the world of Sumo Wrestling. Having attained the highest level of merit, all he could do is retire and become the youngest and greatest Sumo wrestling trainer ever known. **Kaleena Logan**, having won gold in both beach and indoor volleyball at the Games of the XXXI Olympiad in Rio de Janeiro, is now founder, director and head volleyball coach at the L.S.A.A. The Lutheran Sports Academy of America is now the premier Christ-centered, athletic development program in the nation. **Meghan Pitts**, having been awarded a doctorate in timeology from the University of Missouri in Columbia, is currently on a worldwide advocacy tour to convince the world that all analog timekeepers should be outlawed and all chronological functions should be performed in a digital format. **Harper Schroeder** made it big when her hit single went platinum. The world just can't get enough of her song, "I Found My Thrills on Hukullbary Hill". When I asked Harper how she is coping with fame and fortune the Hip/Hopably music world she simply stated, "It's even better than being an Oakland Raiders fan". Schwartz Hydroponics and Jet Propulsion Laboratories is where I caught up to **John Schwartz**. John, a prolific reader in his youth, took the knowledge he gleaned from his reading, coupled that with his ability to grow things without dirt and came up with NASA's replacement for the defunct space shuttle program. SHJPL provides our nation with its first commercial space aviation, extraterrestrial farming and outer-space housing program. **Cameron Snell**, graduated from KU with her PharmD and is now the youngest department chair of the MU College of Pharmacy and the official RPh of the Mizzou Tiger Football team. Cameron has been overheard telling others, "I have never been happier".
